FACING FACTS—

The war is ended—the peace terms signed by Germany—President Wilson is home again after fighting for the rights of the oppressed peoples of Europe—

YET IN AMERICA—

Thirty-six Negroes are known to have been lynched since the armistice was signed last November—one of them a woman—six of the others lynched by being burned at the stake.

Negroes are disfranchised in whole or in part in at least fourteen states of the Union.

Negroes are "Jim-Crowed" in all states of the South.

Negroes are deprived of their just share of school funds.

Negroes are robbed and exploited and then dared to resent it.

Negroes are kept out of lucrative and dignified positions in many instances for no other reason than their color.

DO YOU BELIEVE THAT DEMOCRACY IS ONLY FOR THE WHITE RACE?

If you do, then you should *not* be a member of the National Association for the Advancement of Colored People.

But, if you believe that justice and freedom belong to all races then you should be a member.

HELP END THE FARCE MASQUERADING AS DEMOCRACY BY JOINING THE ASSOCIATION WHICH IS FIGHTING TO END DISCRIMINATION BECAUSE OF RACE—

LET US REASON TOGETHER

BROTHERS we are on the Great Deep. We have cast off on the vast voyage which will lead to Freedom or Death.

For three centuries we have suffered and cowered. No race ever gave Passive Resistance and Submission to Evil longer, more piteous trial. Today we raise the terrible weapon of Self-Defense. When the murderer comes, he shall not longer strike us in the back. When the armed lynchers gather, we too must gather armed. When the mob moves, we propose to meet it with bricks and clubs and guns.

But we must tread here with solemn caution. We must never let justifiable self-defense against individuals become blind and lawless offense against all white folk. We must not seek reform by violence. We must not seek Vengeance. "Vengeance is Mine," saith the Lord; or to put it otherwise, only Infinite Justice and Knowledge can assign blame in this poor world, and we ourselves are sinful men, struggling desperately with our own crime and ignorance. We must defend ourselves, our homes, our wives and children against the lawless without stint or hesitation; but we must carefully and scrupulously avoid on our own part bitter and unjustifiable aggression against anybody.

This line is difficult to draw. In the South the Police and Public Opinion back the mob and the least resistance on the part of the innocent black victim is nearly always construed as

a lawless attack on society and government. In the North the Police and the Public will dodge and falter, but in the end they will back the Right when the Truth is made clear to them.

But whether the line between just resistance and angry retaliation is hard or easy, we must draw it carefully, not in wild resentment, but in grim and sober consideration; and then back of the impregnable fortress of the Divine Right of Self-Defense, which is sanctioned by every law of God and man, in every land, civilized and uncivilized, we must take our unflinching stand.

Honor, endless and undying Honor, to every man, black or white, who in Houston, East St. Louis, Washington and Chicago gave his life for Civilization and Order.

If the United States is to be a Land of Law, we would live humbly and peaceably in it—working, singing, learning and dreaming to make it and ourselves nobler and better; if it is to be a Land of Mobs and Lynchers, we might as well die today as tomorrow.

*"And how can man die better
"Than facing fearful odds
"For the ashes of his fathers
"And the temples of his gods?"*

LABOR OMNIA VINCIT

LABOR conquers all things—but slowly, O, so slowly. Ever the weary worldlings seek some easier, quicker way—the Way of Wealth, of Privilege, of Chance, of Power; but in the end all that they get—Food, Raiment, Palace and Pleasure—is the result of Toil,

but not always of their own toil. The great cry of world Justice today is that the fruit of toil go to the Laborer who produces it. In this labor of Production we recognize effort of all sorts—lifting, digging, carrying, measuring, thinking, foreseeing; but we are refusing to recognize Chance, Birth or Monopoly as just grounds for compelling men to serve men.

In this fight for Justice to Labor the Negro looms large. In Africa and the South Seas, in all the Americas and dimly in Asia he is a mighty worker and potentially, perhaps, the mightiest. But of all laborers cheated of their just wage from the world's dawn to today, he is the poorest and bloodiest.

In the United States he has taken his fastest forward step, rising from owned slave to tied serf, from servant to day laborer, from scab to half-recognized union man in less than a century. Armies, mobs, lynchers, laws and customs have opposed him, yet he lurches forward. His very so-called indolence is his dimly-conceived independence; his singing soul is his far-flaming ideal; and nothing but organized and persistent murder and violence can prevent him from becoming in time the most efficient laboring force in the modern world.

Meantime, in the world round him, the battle of Industrial Democracy is being fought and the white laborers who are fighting it are not sure whether they want their black fellow-laborer as ally or slave. If they could make him a slave, they probably would; but since he can underbid their wage, they slowly and reluctantly invite him into the union. But can they bring themselves inside the Union to regard him as a man—a fellow-voter, a brother?

No—not yet. And there lies the most stupendous labor problem of the twentieth century—transcending the problem of Labor and Capital, of Democracy, of the Equality of Women

—for it is the problem of the Equality of Humanity in the world as against white domination of black and brown and yellow serfs.

THE BLACK MAJORITY

SEVERAL times THE CRISIS has engaged the fickle attentions of the United States Congress. The last occasion was when Senator James Reed, of Missouri, discovered to his horror that the proposed League of Nations would have seventeen "colored" and only fifteen "white" nations:

"First, How will Senators from the South who represent states which have contended that the white race alone is fit to control the destiny of the States of America, who have, therefore, contended that the black man of the South should not be permitted to cast his individual ballot to be counted against the ballot of the white man—how can they contend that Liberia, Haiti, and other Negro or semi-Negro nations should be permitted to sit at the council table of the world and each cast a vote equal to that of the United States?"

"And, Senators, you will have that question to answer to your people; and at that point, to show you that it is a living question and that you are playing with fire, I call your attention to THE CRISIS, a Negro publication, which, I understand, is a paper of wide influence and power. I read an editorial from the May number. . . .

"How shrewdly this man has looked into the situation! I venture to say that the majority of the men in this room did not anticipate that truth.

"What we cannot accomplish before the choked conscience of America, we have an infinitely better chance to accomplish before the organized public opinion of the world. Peace for us is not simply relief from wars like the past, but relief from the specter of the great war of races,

which will be absolutely inevitable unless the selfish nations of white civilization are curbed by a great world congress, in which black and white and yellow sit and speak and act. The refusal to adopt the Japanese race equality amendment is deplorable, but it is an argument for, and not against, a nation of nations. It is the beginning of a mighty end.

"Chew on that quid in your reflective moments; you men of the South!"

But McKellar, of Tennessee, brushes all this pleasantly aside: "The argument is idle. I think the Senators from South Carolina and Mississippi will compare favorably with the Representatives of other States in this body, regardless of the black majority in each of these States."

But can Mississippi and South Carolina forever disregard the "Black Majority"? Can the dark majority of mankind always be ruled by the white minority? And if not, will not a little thinking and forbearance now save a world full of future strife and horror?

At any rate, the dark people of the world have this grim satisfaction: The white world will be so busy fighting and hating itself during the next century that it will have scant leisure to keep black folk in their place.

THE AMERICAN LEGION

THE American Legion is composed, as President Wilson tells us, of "the men who have served in the Army, Navy and Marine Corps, and who are now banding together to preserve the splendid traditions of that service."

The Legion was formed at preliminary meetings, held in Paris and St. Louis, and sought to settle the inevitable color question by giving all authority as to admitting posts to the state bodies. The South promised faithfully to treat Negroes fairly. As a result, in South Carolina "our committee was told flatly by the Exe-

cutive Committee of the state organization that it was a white man's organization and that Negroes would not be admitted." In Louisiana, Negroes were also excluded; but Virginia caps the climax by offering to admit Negroes on condition that

Officers of state organization be elected by whites.

Executive Committee be elected by whites.

Time and place of meeting be fixed by whites.

Delegates to national convention to be appointed in "equitable" manner between whites and blacks by the Executive Committee.

Constitution may be amended by two-thirds vote of whites.

This action and other considerations have given impetus to several all-Negro veteran associations,—The Grand Army of Americans in Washington, D. C.; The League for Democracy in New York; and The American Alliance in Richmond. There is room and work for such colored bodies, *but every Negro soldier and sailor should fight to join the American Legion.* Do not give up the battle. Organize throughout the North and South. In the North there will be little, if any, opposition. In the South every subterfuge will be sought, but force the fight. Make the Bourbons refuse in writing, and then take the question to the national convention. Do not help the rascals to win by giving up.

SIGNS FROM THE SOUTH

THERE are signs—faint and few, but hopeful—that the South is slowly learning the inevitable lesson that no true democracy can be confined to a sex or a race and live.

In Putnam County, Ga., because a Negro made "some insulting remarks about serving white people and not serving a Negro," the enraged whites burned five Negro churches, two Ne-

gro schools and one schoolhouse. Immediately the more decent whites offered \$1,100 reward for the criminals and started a fund of \$5,000 toward rebuilding. Of course, no one will ever be punished for the arson, but the community did speak out in clear condemnation.

In Alabama, twelve men have been convicted as lynchers—two to long jail terms. This is excellent, but we must add that the victim was a white foreigner and the lynchers were ignorant fishermen without wealth or influence.

Finally, in Washington County, Miss., Sheriff Alexander writes to the public concerning a colored prisoner: "I have been asked by the Governor of the State if I wished to remove Williams from the county for safe-keeping, or if I desired assistance from him in the protection of him. I have replied that I did not wish to remove the Negro and that I needed no outside help to protect him. . . .

"No friends of mine, and I count the citizens of Washington County my friends, will attempt to take a prisoner out of my hands, and no man who is not a friend of mine and of law and order can do it."

FORWARD

WE black folk easily drift into intellectual provincialism. We know our problem and tend to radical thought in its solution, but do we strive to know the problems of other forward forging groups whose difficulties are inevitably intertwined with ours?

Here, for instance, is the question of the ownership of public utilities—the railroads, the telegraph and telephone and the street cars—utilities used largely, if not primarily, by the working class, and businesses which have yielded immense fortunes to private owners in the past.

What do we think of these questions—are we studying them? Are we intelligent on the facts? Do we know that the United States is almost the only civilized country that does not own its railroads and wires, and that the municipal ownership of street transportation is widespread?

Or take the battle of North Dakota under the Non-Partisan League; are we swallowing easily the gossip of a prejudiced press, or do we realize that these western farmers are resolutely grappling with the mightiest problem of present-day life—how to prevent the necessities of the poor from being simply the opportunity of predatory wealth to amass dangerous fortunes? North Dakota is putting her government into the business of banking and publishing, running grain elevators and stockyards, packing-houses and flour mills and overseeing mines. Will she fail? Perhaps, but her efforts are worth watching, and failure never yet proved wrong right.

Beyond these questions lie the Suffering Groups—Ireland, India, Russia.

From long tradition—since the draft riots of the Civil War—Negroes have had no sympathy with the Irish. But they must not rest in this unreason. Let every colored man read this month a history of Ireland. If he does not rise from it bitter with English cruelty and hypocrisy, he is callous indeed.

The cry of oppressed India sounds right in our own land in the persistent attempts of England to secure the transportation of Hindus accused of the treason of trying to make their country free.

And, finally, the one new Idea of the World War—the idea which may well stand in future years as the one thing that made the slaughter worth while—is an Idea which we are like to fail to know because it is today

hidden under the maledictions hurled at Bolshevism.

It is not the murder, the anarchy, the hate, which for years under Czar and Revolution have drenched this weary land, but it is the vision of great dreamers that *only those who work shall vote and rule.*

THE CRISIS

DURING the existence of THE CRISIS (November, 1910, to July 1, 1919) there have been sold 3,885,899 copies of the magazine. The average net-paid monthly circulation has been as follows:

1910 (2 months).....	1,750	copies
1911	9,000	"
1912	22,000	"
1913	37,000	"
1914	31,450	"
1915	32,156	"
1916	37,625	"
1917	41,289	"
1918	75,187	"
1919 (6 months).....	93,650	"

The total monthly net-paid circulation in 1919 has been:

January	83,000	copies
February	55,000	"
March	92,900	"
April	97,000	"
May	100,000	"
June	104,000	"

The annual cash income has increased from \$6,572 in 1911 to \$23,865 in 1915, and \$57,367 in 1918. This year the income will probably reach \$72,000.

These figures are gratifying and impressive, but the cost of publication is also high: 55% of our expense is for publishing, which includes paper, printing, engraving, binding, etc.; 23.9% goes for salaries; 10.6% for postage; 8.3% for general expenses, including rent; and 2.2% for stationery and supplies.

THE CRISIS costs a dime; five cents of that goes to the agent; the other five cents goes a little over half to the publisher, nearly a quarter to the employees and of the other little less than a quarter, half goes to postage

and half to general expenses, stationery and supplies.

The number of employees of THE CRISIS has been gradually increased, but we have not yet as many as we ought to have for the handling of the work. In the office there are at present twelve employees, including the Editor and the Business Manager. Two or three extra persons are brought in to help in the mailing. In the field there is a force of 1,200 agents.

The expenditure for postage has increased rapidly during the last few years. In 1913 we spent \$1,615 for postage; in 1916 we spent \$2,042; in 1918, \$4,559. During six months of 1919 we have spent \$3,618, which means that for the year our expenditure will be about \$7,000.

This represents not simply an increase in the amount of mailing, but a large increase in the mailing rates.

The increase in the various items of publishing has been large: The cover paper a year ago cost \$8.00 per hundred and now costs \$9.50; the inside stock formerly cost \$6.80 and now costs \$7.25. In December, 1917, composition and presswork increased 10%; in November, 1918, it increased 20% upon this. Binding which was \$2.30 per thousand in October, 1917, now costs \$5.25 per thousand.

This means that the margin between income and expense is not only dangerously narrow, but that any increase in our size necessitates increase in price.

In November, therefore, we are adding sixteen pages to our size. This will mean more illustrations, poetry and fiction as a permanent feature, and above all, one or two solid articles monthly on historical or sociological subjects affecting the Negro.

May we ask that our increase to \$1.50 a year and 15 cents a copy will not cause us to lose a single one of our 105,000 buyers?

THE OPPORTUNITY OF NEGRO LABOR

DR. GEORGE E. HAYNES,
Director of Negro Economics, U. S. Department of Labor

AMERICA is probably facing the greatest agricultural, industrial and commercial expansion in her history. For this purpose, there must be labor, unskilled, semi-skilled and skilled. The cessation of immigration during the war and the emigration of aliens now give no promise of an adequate supply of laborers from abroad. The Negro people furnish the largest potential supply available. This situation offers the long-sought economic opportunity for the Negro worker. It emphasizes, however, questions of relations of white workers, white employers and Negro workers on terms of full justice and opportunity. In the light of recent riots and the question of Negroes in the Chicago stockyards, these statements may seem too optimistic. But a brief sketch of the facts given here will indicate some of the grounds for faith.

Let us look more in detail at the facts: America faces a great economic expansion. She has already been called upon to furnish supplies for rebuilding and feeding Europe. The markets of Africa, Asia and South America are open to her as never before. The home market, after the self-denials of war, is calling for the products of the factory and the farm. To build and command ships, to produce raw materials from the fields, the forests and the mines, and to manufacture for the markets, call for laborers.

An adequate labor supply is not available through foreign immigration. At the close

of the war America was more than three millions short of immigrant laborers. Today, aliens in this country are going back to Europe by the thousands, as fast as they can get passports and ocean passage. Investigations of the Department of Labor have shown that in many cities fully 50 per cent of aliens plan to return to their native lands. Many of them are going because they have not heard from their relatives during the war. Others desire to

settle the estates of relatives killed in the war, or to gain land and other opportunities under their new governments. Furthermore, there is a strong pressure for additional laws restricting immigration. Mexican, Chinese and Japanese laborers are already excluded from the United States.

The Negro workers of the Nation, who form about one-seventh of the total working population, constitute an important available source of labor from which to meet the increasing demands of agriculture, industry and commerce. Al-

ready in at least six states, where Negroes are an important labor factor, there is a labor shortage.

An important change in the occupational condition of Negro workers took place during the war and seems likely to continue. Preceding the war the large majority of Negro workers were engaged in domestic and personal service and in agricultural pursuits. They found then a much more restricted opportunity in trade and trans-

DR. GEORGE E. HAYNES

portation and manufacturing and mechanical pursuits than during and since the war. During the war the doors to industrial occupations swung open, particularly in the iron and steel industries, in foundries, in slaughtering and meat packing plants, in automobile and automobile accessory plants, in brick and clay product industries, in coke-making and in coal mines.

The shifting of large numbers of workers, white and colored, from agriculture to industry has created a shortage of labor on the farm. Planters and farmers are, therefore, having to offer increased inducements in wages and other terms for tenants and laborers. Some land owners are offering to Negroes land ownership on adjoining tracts, as a means of securing part-time workers for their own land.

With the coming of these economic opportunities for which the Negro has waited and worked, there arises, naturally, the question of practical plans for successfully grasping these opportunities. The entrance of the Negro into these new fields of work involves far-reaching questions of his relationship with white employers and white workers. These questions must be met and successfully solved in the local community on the basis of standards and needs of the wage-earners of the nation, white and black.

The Department of Labor took steps during the war to secure the co-operation and help of the three group interests involved in adjusting such questions. The Secretary of Labor stated as the basic principle of the plans that since Negroes constitute about one-seventh of the wage-earners of the United States, it seems only reasonable and right that they should have representation in council when matters affecting their welfare are being considered and decided.

The plans pursued recognized also that the majority of Negro workers are employed by white employers on jobs or in occupations with white workers, and that the racial difference is the occasion for fears, misunderstandings, prejudices and suspicions, thus producing problems calling for action on a co-operative basis and in the light of national standards and ideals. These local questions have a national bearing on the welfare of wage-earners, white and colored; on the interests of employers and on the interests of all the people.

Following out these principles, the De-

partment of Labor formed co-operative Negro Workers' Advisory Committees by states, counties and cities. Serving upon these committees were representatives of Negro wage-earners and, either upon them or co-operating with them, white employers and, wherever possible, white wage-earners. In this way, connecting links were established between white workers, white employers and the existing organizations of Negro workers, such as churches, lodges, labor unions, women clubs, betterment agencies, etc., through which the feelings, desires and activities of Negro workers are expressed.

To make these committees effective in each state, the Secretary appointed Supervisors of Negro Economics. The Woman in Industry Service of the Department appointed two national agents to look after the interests of colored women in industry. Through these co-operative advisory committees the welfare of Negro wage-earners was advanced and amicable and helpful relations were established with white employers and white workers in ten states and about 250 localities.

As indications of the results achieved, mention may be made here of some of the varied and helpful activities carried on by these committees and supervisors. Bi-weekly reports were made on the demand and supply of Negro labor in different localities. For example, such reports were made regularly from thirty-one cities and counties in Ohio, from fourteen in Michigan, and from sixty in Virginia. Through co-operation with the U. S. Employment Service, the Committees and Supervisors helped in recruiting and placing thousands of workers and in opening new lines of industries and new plants to Negro workers, both male and female, in Ohio, Michigan, Illinois, Virginia, North Carolina, Pennsylvania, New Jersey, New York, Florida, and Mississippi. Numbers of employers in these states, as in others, were advised about improvements and methods of dealing with Negro workers. The supervisors in Michigan, Ohio, Illinois, New Jersey, North Carolina and Mississippi gave a large amount of such advisory service. Complaints about the conditions and treatment of Negro workers were brought to the attention of employers. Following the armistice, special assistance was given in forming and making effective for Negro soldiers

the Placement Bureaus for Returning Soldiers and Sailors. For example, in Illinois volunteer workers solicited by telephone or personal calls more than a thousand employers in the interest of returning Illinois Negro troops and about 5,000 letters in their behalf were sent out.

Conferences with employers and leaders of Negro workers were held in many localities, often in co-operation with local organizations and authorities. For instance, in Mississippi during December and January, more than thirty conferences of from 75 to 300 Negro school teachers and ministers were visited in co-operation with the Board of Education of that state. Preceding the establishment of the state and local committees in the ten states, state conferences were held. Four of these were called and presided over by the governors of the states. Sixteen sectional conferences were held. One informal national conference, with representatives from forty-five welfare agencies, boards and organizations, North and South, dealing with the welfare of Negro workers, was held in Washington last February. At these conferences programs of work and plans of co-operation were adopted and put into operation. At the informal national conference such a program and plans national in scope were adopted and recommended to the Department and are now being put into operation.

One of the most significant pieces of work begun, but not yet completed on account of failure of appropriations, was the study of the experience of employers in industries that employed Negro workers during 1918-19. This study was begun before the close of the war and continued into the present year. Up to the time it was stopped, records from 244 typical plants employing Negroes in seven states with a total of about 35,000 workers, white and colored, had been secured. A full report on Negro Migration in 1916-17 was edited and published.

The figures are not yet available, but two general indications have already been announced by the Department: First, that in all these plants Negro workers and white workers were employed with apparently good feeling on both sides. Second, with here and there an exception, the Negro workers in the matter of turnover, absenteeism, wage scales, quantity and quality of the work on which they were employed,

compared favorably with the white workers in the same plant on the same work. Here is substantial answer to the old charge of shiftlessness and laziness.

With the new expansion of American agriculture, industry and commerce and with the prospect of a labor shortage during the next decade, adjustments must be made which will assure full opportunity and justice to Negro workers, which will safeguard the struggles of white workers for higher standards of wages, hours and working conditions, and which will give due consideration to the productive interests of employers and the economic interests of the entire nation. To those who have considered the question carefully, the experiment already made by the Department of Labor demonstrates that practical results to this end can be achieved through the co-operative Negro Workers' Advisory Committees, described above, linked with and working through existing organizations, or through similar plans. Each community has felt the freedom of local autonomy, has had the experience of other communities as examples and inspiration and has had help of national standards, needs and policies through the Federal Government. The Secretary of Labor has continued the Department of Negro Economics even after the failure of appropriations asked for it from Congress. Many individuals and organizations have endorsed his action.

The problems of the future are many and will call for racial good will and co-operation on a basis of fair play and justice to all. The Negro needs help in building up a leadership that will guard his interest and guide his steps toward thrift and efficiency. Living conditions, such as housing and sanitation, recreation, schools and community life, must receive attention. Better relations between white workers, white employers, and Negro workers on a basis that will insure a man's chance, equal wages, hours and conditions of labor for Negro workers require some means by which they may meet in council.

As the Negro faces the responsibilities of these new opportunities the plans of labor adjustment carried out by the Department of Labor furnish a meeting ground to all under impartial auspices where employers and employees of the two races may meet and not only adjust their differences, but form constructive plans for mutual help.

AN APPEAL TO BLACK FOLK

THE SECRETARY OF LABOR

My dear Dr. Haynes:

SO important do I consider the information, advice, and departmental aid furnished through your work as Director of Negro Economics, a war service of the Department of Labor, which I created in order to harmonize the labor relations of white workers, Negro workers and white employers, and thereby to promote the welfare of all wage-earners in the United States, that I hereby request you to continue the service.

Owing to our failure to get the appropriations asked for from Congress, it will be necessary for you to continue without the field staff that would enable you to gather information and give assistance more promptly and fully. But I need your assistance in this work of conciliation and will make such provision for retaining it as is possible.

I hope that the white and colored citizens, both North and South, who have so heartily and beneficially co-operated with you, will continue their co-operation under the difficult circumstances in which the Department is involved due to curtailed funds. By correspondence with such citizens, you may enable the Department of Labor to continue in some degree the valuable service you have rendered in dealing with the delicate and difficult problems touching Negro labor, and thus to serve employers and workers of both races and all sections.

Let me supplement this request with the most emphatic assurances of my appreciation of your personal qualities as well as the value of your work.

Yours very truly,

(Signed) W. B. WILSON,
Secretary.

THE NEGRO AND THE LABOR UNION

AN N. A. A. C. P. REPORT

IN his study of the "Negro Artisan," Atlanta University, 1902, Dr. DuBois sums up the matter of the relation of the Negro to the labor union in the following statement:

"The rule of admission of Negroes to unions throughout the country is the sheer necessity of guarding work and wages. In those trades where large numbers of Negroes are skilled they find easy admittance in the parts of the country where their competition is felt. In all other trades they are barred from the unions save in exceptional cases, either by open or silent color discrimination. There are exceptions to this rule. There are cases where the whites have shown a real feeling of brotherhood; there are cases where the blacks, through incompetence and carelessness, have forfeited their right to the advantages of organization. But on the whole, a careful, unprejudiced survey of the facts leads one to believe that the above statement is true approximately all over the land."

This view is as correct in 1919 as it was in 1902, but the position of the Negro artisan has, in the meantime, greatly changed. With the European War and its shortage

of immigrant labor, the colored man has entered into the industry of the United States. North and South he no longer stands at the foot of the ladder, doing only the heaviest unskilled work; he still performs many of these tasks, but thousands have moved up the rungs and are competing with the white man in well-paid skilled labor. This makes his organization necessary to the labor movement of the United States, and it explains the extraordinary interest and even enthusiasm manifested for him at the recent annual conference of the American Federation of Labor.

The conference met in Atlantic City in June and on the thirteenth of that month the Negro members made themselves heard. They spoke in no uncertain terms. There were twenty-three of them, where the preceding year there had been only six. Among the group were the representatives from the Freight Handlers and Helpers, Memphis; the Shipbuilders' Helpers, Tampa; the Janitors, Charleston; the Stationary Fire-

men and Oilers, Denver. Men came from the Texas oil fields, from the railroads of Mississippi, and from the shipyards of Norfolk.

John A. Lacey, Secretary of the Labor Council of Norfolk, declared that a serious condition existed in many cities where the labor organizations refused to take Negro laborers—that the Negro in the United States had received dirty treatment. "We don't ask any favors," he said, "we ask for a chance to live like men, with equal rights and democratic rule. The Negro can read now, and the man who can read can think."

Complaints came from the Negro Freight Handlers and the International Longshoremen of discrimination on the part of the Brotherhood of Railway Clerks throughout the South. The Chief Executive of the Brotherhood, aroused by this, admitted that his organization did not give full rights to the Negroes, but hoped that at their next executive board meeting full rights would be allowed them.

The Committee on Resolutions then introduced a resolution that "the Executive Council give particular attention to the organization of colored workers everywhere and assign colored organizers wherever possible; and that in cases where International Unions affiliated with the A. F. of L. refuse admittance to colored workers, the A. F. of L. organize the workers under charters from the Federation."

This resolution was followed by a demonstration such as made the onlooker believe that the Negro had at length come into his own in the labor world. Forty heads of International Unions arose and welcomed black men into their ranks.

Mollie Freedman, of the International Ladies' Garment Workers, was the first to speak, declaring that her union had six thousand colored girls in its membership and was proud of them; Seymour Hastings, of the Motion Picture Players' Union of Los Angeles, declared, "We draw no distinction as to race or color"; and the Meat Cutters and Butchers Workmen's Union announced large membership of Negroes employed in the packing plants and five Negro organizers on the road. Among others who arose to testify to their hearty welcome to the Negro were also the Carpenters, Plasterers, Bricklayers, Brick and Clay Workers; Hod-Carriers, Steel and Iron

Workers of the Building Trades; the United Mine Workers; Mill, Mine and Smelter Workers; Textile Workers; Laundry Workers; Upholsterers, Leather Workers; Boot and Shoe Workers; Fur Workers; Tailors, Garment Workers; Brewery Workers and Cigarmakers; Teamsters, Firemen and Pilers, Street Railway Employees, Seamen and Maintenance-of-Way Men; Federal Employees, Postal Employees, Letter Carriers; Stage Employees; Motion Picture Operators; Car Builders; Molders, Quarry Workers; Printers, Stereotypers, Barbers; and the Professions of Music and Civil Engineering.

This was the demonstration. And since the American Federation of Labor always desires more power, more money and more men, it is likely to use pressure when necessary upon its local units to bring in the thousands of colored workers, whose dues will help swell its treasury and theirs. It knows, too, that the colored men have learned to organize and constitute a danger outside the Federation. It is not difficult to forget racial prejudice when a high wage is at stake.

What has the N. A. A. C. P. done on this matter?

In January, 1918, at the call of the Urban League, representatives from that body, the N. A. A. C. P., the Slater Fund, the Jeanes Fund, and Tuskegee presented the following memorandum to the A. F. of L.:

"We wish especially to address ourselves to the American Federation of Labor which at its recent convention in Buffalo, N. Y., voiced sound democratic principles in its attitude toward Negro labor.

"We would ask the American Federation of Labor, in organizing Negroes in the various trades, to include: (1) skilled as well as unskilled workmen; (2) northern as well as southern workmen; (3) government as well as civilian employees; (4) women as well as men workers.

"We would have Negro labor handled by the American Federation of Labor in the same manner as white labor: (1) when workmen are returning to work after a successful strike; (2) when shops are declared 'open' or 'closed'; (3) when Union workers apply for jobs.

"We would have these assurances pledged not with words only, but by deeds—pledged by an increasing number of examples of groups of Negro workmen given a 'square deal.'

"With these things accomplished, we pledge ourselves to urge Negro workingmen to seek the advantages of sympathetic cooperation and understanding between men who work."

This has been the stand of the N. A. A. C. P. for a year and a half. Mr. Shillady has appeared in committee before Mr. Gompers and his executives and now at last, through pressure from without and within, the A. F. of L. has made a good beginning at the "square deal."

From the correspondence with our branches we realize that the choice between organization and non-organization is not always so simple as it seems. At Birmingham we learn that the employers treat their colored workmen fairly, but through agents urge them not to join the union. The President of the Branch adds: "Thus far the Negroes have found it profitable to stay out of the unions, for they have given him a cold deal." A letter from Austin, Tex., says: "There seems to be general unrest between the races and it is thought that labor agitation, the admission of Negroes into the American Federation of Labor, is the cause."

Especially interesting has been a long correspondence with a member at Balboa in the Canal Zone who is strongly in favor of union organization, but who has been telling us of the efforts of white union men in the Zone to prevent the organization of colored men. The A. F. of L. sent two men to Panama especially to organize colored labor. These men, shortly after their arrival, were informed that the white workers were against them, that they did not wish Negro laborers to have the permanent status organization would give them, and white union officials even went so far later as to ask the Governor to have the organizers deported. This was not done, and next an unsuccessful attempt was made to have them recalled from United States Headquarters. The organization of black men continued, however, and will continue, though at Atlantic City a white represent-

ative sent up from the Zone offered a resolution against the unionizing of Negro labor at Panama. The resolution was received and referred to the Executive Committee for investigation, where, it is believed, it will remain indefinitely. The A. F. of L. seems earnest in its desire to bring to American colored labor in the tropics a decent wage.

A press report from Chicago says that a committee of prominent Negroes, speaking on the riots, urges the colored men whenever possible to join the labor unions. We believe this is wise advice. When colored labor enters into competition with white labor, as it is doing increasingly today, it must demand the hours and wages of the white worker, or be counted a scab. To underbid for any length of time is to pull down the standard of living of the working class. The opposition of the white worker on racial lines becomes insignificant when the real issue, the issue "to live like men," as John A. Lacey put it, is before him. For his selfish purposes he must admit America's hundreds of thousands of black workers into his International Brotherhood.

The Labor Union is no panacea, but it has proved and is proving a force that in the end diminishes race prejudice. A democracy prospers when laborers of all races work together. Where a despotism is at its height, as in the old days of southern slavery, cracker and black are kept apart, hating one another, ignorant and ragged workers going about their unskilled, wasteful tasks.

It was an immense advance toward harmony between the races when for a half-hour at Atlantic City the Negro was invited into the full and equal privileges of organized labor. It is now his business to accept this invitation, to see that given in the heat of enthusiasm it is not withdrawn, to follow it up and to go hundreds strong to the next meeting of the Federation.

THE RIOTS

AN N. A. A. C. P. INVESTIGATION

I REACHED Washington early in the evening of July 22. As the train neared the capital I could feel the tenseness of the situation grow. It showed itself in the air of the passengers as they read the newspapers, with their glaring headlines telling

of the awful night before and intimating that the worst was yet to come. As I passed through the cars on my way to the diner and back, men and women glanced up at me with what seemed to be a look of mild surprise; with a glance which

seemed to say, "This man must indeed have very important business in Washington."

The porters and waiters plainly showed the strain under which they were doing their work—the strain of suppressed excitement with, perhaps, an added sense of dread of going into something, they knew not what. They moved about quietly, in fact, grimly and entirely without their customary good humor and gaiety. One of the porters who knew who I was questioned the wisdom of my going through with the trip. I may have felt that his question was not absolutely without reason, but I did not admit it. When I left the car he said to me, "Take good care of yourself." I assured him that I would spare no effort to do so.

I had made many trips to Washington—some as a mere visitor, some as a member of the Government's Foreign Service, some for the purpose of placing for the National Association matters affecting the race before men high in authority and position; and so I had experienced varied emotions on making the trip to the Nation's Capital, but none like the emotions experienced on this trip. I knew it to be true, but it was almost an impossibility for me to realize as a truth that men and women of my race were being mobbed, chased, dragged from street cars, beaten and killed within the shadow of the dome of the Capitol, at the very front door of the White House. It was almost an impossibility for me to realize that, perhaps, my own life would not be safe on the public streets.

When we reached the Northwest Section of the city, I found the whole atmosphere entirely different. I had expected to find the colored people excited and, perhaps, panicky; I found them calm and determined, unterrified and unafraid. Although on the night before shots had blazed all through the night at the corners of Seventh and T Streets and Fourteenth and U, I could detect no signs of nervousness on the part of the colored people living in the section. They had reached the determination that they would defend and protect themselves and their homes at the cost of their lives, if necessary, and that determination rendered them calm.

Still, under the outward calm, there was a tautness that could be sensed. Wild rumors had been circulating all day foreboding terrible things; and these things, whatever they might be, the colored people had made

up their minds to meet. But as darkness came on, the rain began to fall, and later it fell in torrents; so it may be that the rain had something to do with the things that did not happen.

That evening I met with a half-dozen of the influential colored men of the city. We talked over what had happened and discussed the steps already taken by the authorities and by the colored citizens and such steps as we thought it well to take on the following day.

The next morning Mr. Seligmann and I had a conference with Major Pullman, Chief of Police, regarding the protection of colored citizens. At this interview Mr. Seligmann secured for the information of the National Office and for purposes of publicity data regarding all the alleged cases of attacks on women which had been put forward as the cause of the riots. Our conference with Major Pullman lasted an hour; he expressed a desire to have us talk with Commissioner Brownlow and made an appointment with him for us at two o'clock in the afternoon. Before we left Major Pullman's office a committee consisting of Dr. A. M. Curtis, young Dr. Curtis and Mr. Emmett J. Scott, accompanied by Captain Doyle of the 8th Police Precinct, came to ask that the Police Department swear in a number of colored men as Special Officers to aid in preserving law and order. Mr. Seligmann and I remained and gave our support to the committee. However, it was plain that Major Pullman was not favorable to the plan. He suggested that the committee take the matter up with his superior, Commissioner Brownlow. Mr. Seligmann and I then informed the committee of our appointment with the Commissioner at two o'clock, and invited them to go.

In the afternoon we had a long conference with Commissioner Brownlow. The whole situation was gone over, and the plan of commissioning colored men as Special Officers was brought up. The Commissioner was stronger in his opposition than the Chief of Police.

In the evening I attended a meeting of the Executive Committee of the Washington Branch to learn what the branch had done and was doing, and to offer such suggestions as I might. I found that the branch had been active as far back as July 9, when it sent a strong letter to all four

of the Washington daily papers, calling their attention to the fact that they were sowing the seeds of a race riot by their inflammatory headlines and sensational news articles. After the outbreak of the riots a committee had been appointed which went before Commissioners Brownlow and Gardner and before Major Pullman to urge that effective action be taken to prevent assaults upon defenseless colored people who were the victims of the attacks. Members of the Legal Committee had spent considerable time in court in connection with the trials of the men who had been arrested for carrying weapons for their protection. A committee was set at work obtaining affidavits from victims of the riot who had been wounded or injured. And at this meeting the Legal Committee was authorized to interview all colored persons charged with rioting and offer them legal assistance.

On the following morning I went to the Capitol and talked at length with three influential Senators. I went over the whole situation, not only local, but national, with these Senators, and did my best to show them what I considered to be the principal causes of the trouble. I also spoke to each one of them regarding a Congressional investigation of the whole question of mob violence. I was able to secure from one of these Senators, who has been in Congress for twenty-five years and is a member with experience and prestige, and who is also a strong advocate of justice for the Negro, the promise that he would father a resolution calling for such an investigation and a printed report on the same.

In the afternoon I went to the office of the *Washington Post* and talked with the city editor. It was the *Post* which on Monday morning had published the "Mobilization for Tonight" call to the idle service men in Washington to meet near the Knights of Columbus hut, on Pennsylvania Avenue, and organize a "clean up." When I handed the city editor my card, he appeared glad to see me. He seemed to be under the impression that I had come down from New York for the express purpose of telling the colored people in Washington to be "good." He called a reporter and asked me to tell him what the Association was doing and proposed to do in the matter.

I lost no time in telling him that the

organization which I represented stood for law and order; that all the fights it had made in behalf of the colored people had been made through and under the law; but that my reason for calling on him was not to discuss that phase of the situation. I then proceeded to tell him frankly and directly how responsible were the *Washington Post* and the other Washington dailies for what had taken place.

I talked with him for, perhaps, half an hour. During the whole time he stood as one struck dumb; at least, he answered not a word. I realized that the man was scared through and through. He asked me before I left if I thought the riots were over. I told him I thought they were, unless the whites again took the aggressive. I was surprised to see the next morning that the *Post* published some of the things I had said.

The next day, accompanied by Mr. R. C. Bruce, I made similar visits to the offices of the *Washington Times* and the *Washington Star*. In the afternoon I talked again with one of my Senators. At night I left for New York.

I returned disquieted, but not depressed over the Washington riot; it might have been worse. It might have been a riot in which the Negroes, unprotected by the law, would not have had the spirit to protect themselves.

The Negroes saved themselves and saved Washington by their determination not to run, but to fight—fight in defense of their lives and their homes. If the white mob had gone on unchecked—and it was only the determined effort of black men that checked it—Washington would have been another and worse East St. Louis.

As regrettable as are the Washington and the Chicago riots, I feel that they mark the turning point in the psychology of the whole nation regarding the Negro problem. JAMES WELDON JOHNSON.

MAJOR J. E. SPINGARN reached Chicago, on his way to the West, July 30 and for twenty-four hours did active work for the Association. At his suggestion a committee called on Governor Lowden, on July 30, and among other matters discussed the appointment of a commission of five or eight to study race troubles and to formulate a definite program on race relations for the state.

On July 30 Mr. John R. Shillady, Secretary, and Mr. Herbert J. Seligmann, Director of Publicity, reached Chicago and at once plunged into work relating to the riots. A great amount of publicity in the daily press under the Association's name is due to Mr. Seligmann's tireless work. Mr. Shillady sends the following notes:

There was formed upon my initiative a Joint Emergency Committee to deal with the situation as regards the needs of the colored community, in so far as all elements will work through this committee. This committee is a committee of an executive character, on matters of policy and action, but leaving constituent organizations free to do such part of the work as they may be willing and able to do. The committee consists of one each from the Cook County Bar Association

(colored lawyers' organization), the Urban League, the Y. M. C. A., the N. A. A. C. P. and Ministers-Social Workers-Citizens Conference, the last a group which has been meeting daily at Olivet Baptist Church, 31st and South Park Avenue. Further, each representative member is to have an alternative, so that some one will always be available to meet as often as is required.

The lawyers furnish free one of their number to be at each police station and court every morning, to take charge of the legal defense of any colored person needing such service. Headquarters have been arranged for at Olivet Baptist Church, where two lawyers, at least one stenographer, and necessary investigators, paid and volunteer, will be stationed to receive relatives and friends of men in jail and under arrest.

Men of the Month.

THREE PREACHERS

THE Rev. Dr. W. Sampson Brooks is a Methodist preacher from Calvert County, Md. He stands today in the forefront of remarkable colored Americans because he has paid for old St. Peter's Church, at Baltimore. At the last rally his people laid \$30,000 on the table, which is certainly a record. It is now Bethel A. M. E. Church and cost \$90,000 in all.

The Rev. W. H. Jernagin, Pastor of Mt. Carmel Baptist Church, Washington, D. C., has been foremost in organizing successful race conferences for the Capital City, and is a member of the Permanent Committee of the Pan-African Congress. He was born in Mississippi.

The other preacher was not a preacher, but a soldier—Lieutenant Thomas J. Bullock, one of the "Buffaloes," who gave his life in France for American freedom, and thus "being dead, yet speaketh" to every rioter in Washington and Chicago. He was born in North Carolina and educated at Lincoln.

TWO WOMEN

IN Cleveland, they swear by Jane Hunter. She began as a nurse-girl, at fifty cents a week. Afterward she became a trained

nurse and finally the founder of the Phillis Wheatley Home, which houses on an average of 375 women a year and finds places in industry for over 600 a month. For this Miss Hunter raises \$21,000 annually.

Antoinette Smythe Garnes received the degree of Bachelor of Music at the Chicago Musical College, in 1919, and the Diamond Medal for vocal efficiency.

Thus our women venture into greater fields of social service and art.

TWO BUSINESS MEN

A. B. CAMPBELL has a general merchandise store in Salem, Va., while Isaac M. Carper is a contractor in Charleston, W. Va. For twenty-five years the Campbell store has been one of the finest stores in this beautiful, little town; and if you go to Charleston and pass the great Government Projectile Plant, you will find that it was Carper who painted this building, at a cost of \$5,192. After that, at Nitro, Mr. Carper received a contract of \$10,576 from the Thompson-Starrett Company for some more painting, which was completed in sixty-six days.

Meantime, the local Painters' Union refuses Mr. Carper admission.

LITERATURE

"THERE is a poor, blind Samson in this land,

Shorn of his strength and bound in bonds of steel,

Who may in some grim revel raise his hand
And shake the pillars of this common-weal,
Till the vast Temple of our liberties,
A shapeless mass of rubbish lies."

LONGFELLOW.

WE have received "The Steel Makers and Other War Poems" (privately printed), by Leon R. Harris, who has some gift in the making of verse, and "Songs of My People" (The Cornhill Company), by Charles Bertram Johnson, which sings tunefully here and there.

There are two books that have long lain on our desk which deserve more than passing notice—one is "The Question Before Congress" (A. M. E. Book Concern), by George W. Mitchell. This is one of the most interesting pieces of original research into the Congressional history of the Negro problem which we have seen. Its chief value lies in its excellent exposition of Congressional action concerning the Negro before, during and just after the Civil War. Students of Reconstruction should study particularly Chapters XIII to XXIV.

Maud Cuney Hare's "The Message of the Trees" (The Cornhill Company), is an anthology which has received and deserved wide notice. For those of us who would at times escape from our own problem into the great heart of nature, here is a chance to walk beneath the trees holding the hand of one who loves them.

WOMEN AND LYNCHING

AS for lynching, it is, in nearly every case, a rude form of vengeance for that crime against womanhood which American men cannot forgive.—*New York Herald.*

Lynching is the only protection white women in the South have against the brutal black

fiends you of the North wish to protect. *A MONG* the colored victims of [30 years' lynching in the United States] 35.8% were accused of murder; 28.4% of rape and "attacks upon women" (19% of rape and 9.4% of attacks upon women); 17.8% of crimes against the person (other than those already mentioned) and against

property; 12% were charged with miscellaneous crimes; and in 5.6% of cases no crime at all was charged. . . .

Further, it may fairly be pointed out that in a number of cases where Negroes have been lynched for rape and "attacks upon white women" the alleged attacks rest upon no stronger evidence than "entering the room of a woman" or brushing against her.

N. A. A. C. P. Publications. * * * * *
Law was made to protect the innocent, not savages who commit fiendish crimes. Here in New York a white girl was shot to death in cold blood by a Negro fiend because she repulsed his advances, and the brute is charged with homicide, not even punishable by death.—J. L. Green in the *New York Globe.* * * * * *

On the other side the white race has taken the grim determination that there shall be no mixture of stock. That is by no means an easy task to maintain, even in a country like ours. How much more difficult in those states where the black population is rapidly threatening to outnumber the white! But so deep is the determination that the white man refuses to hand over this matter to the process of law. The purity of the stock in these states is defended by a literal system of "white terror," which has become part of the customs of the country. Lynch law, in other words, has become an institution.—Harold Spender in the *Montreal Standard.*

Would it surprise Sir Ralph Williams or the British people in general to know that there are in South Africa 600,000 half-castes who are the offspring of white men and black women, and that a similar number of half-castes with a like parentage are to be found scattered over the various West India Islands? Are we to take it, then, that Sir Ralph's fine sense of honor and delicacy is not shocked at the intimate immoral associations between white men and black women? Speaking myself as a man of color, I might say that I am voicing the feelings of my own race when I declare that my whole mind revolts against the seduction of my women and girls by white men—young girls of thirteen and fourteen years of age are used to gratify the base lust of white seducers and are left with half-caste children on their hands to mourn

"White Women Assaulted by Negroes in Washington" is what we all have noticed in our every-day papers as each publication comes into our hands. But, my fellow citizens, as I glanced through the papers last evening and saw where our soldiers, sailors and marines have taken the matter into their own hands, it filled my heart with joy. Are we going to allow Negroes to assault our sisters, wives and possibly mothers? I will say no, never, not if it costs the life of every true American.

Allow me to say, dear editor, that I am not prejudiced toward the Negro race, but when our women, whom we crossed the sea to fight and die for, are assaulted here in our own country, it boils the blood in our veins, and if the Police Department in Washington are incapable of protecting our women, then our service men who crossed the sea to protect them will, if need be, protect them in our grand and glorious capital.

Allow me to say that in my opinion our capital is today being run by Negroes, and a white man has about as much chance of accomplishing anything as a Bolshevik has. Why are white men being discharged from positions in various departments in Washington and Negroes put in their places? I recollect one case where an Assistant Librarian of one of our Government Libraries, who has

the "honor" of the civilized white man.—F. E. M. Hercules in the *London Times*.

* * *
The white men went after these colored girls; the girls ran under the porch and hid. These white men broke down the door and tore up the floor. The old widow got frightened, ran and jumped in the well, and the children screamed for help.

Berry Washington, colored, seventy-two years old, ran out with his shotgun in his hand. When he got near the hall, he met both of the white men. John Dandy, twenty-five years old, with a wife and two children, asked the old man what he came out for. He said: "To see what was the matter with the women and children," then John Dandy fired at him and said: "I will kill you, old man." The old man fired and killed him (John Dandy) first. He fell with his pistol in his right hand and a cigarette in the other, and a flask of liquor fell out of his pocket. The other white man ran (Lewis Evans).

Another colored man came out and advised Washington to go uptown and wake the Chief of Police and give himself up. The policeman's name is Stuckey. He sent Washington to McCrae Jail at 2 o'clock on the night of the 24. He stayed in jail until Saturday night, the 25, at 12 o'clock. A mob of seventy-five or one hundred brought him back to Milan. They carried him to the same

held that position for a number of years, was thrown out and replaced by a Negro. In every Government Department in Washington there are Negroes who are holding high positions, and when a soldier, or allow me to say a veteran, of this great war, who has spent sleepless nights, days, weeks and months going down to the depths of hell in those horrible trenches of France, and who upon return to his home country happened to walk into a Government Office in Washington on crutches and there to his astonishment see a Negro hugging a white girl whom he was dictating a letter to as she was seated in his lap, do you wonder why some people are prejudiced against Negroes?—"J." in the *Baltimore Sun*.

spot where he shot Dandy and lynched him. He was hanged to a post, his body shot into pieces and left hanging there until 2 o'clock Sunday morning, May 26.—*Atlanta Constitution*.

* * *
I wonder if it is commonly known that in the South there is little or no legal protection for the colored girl. A typical case came to my knowledge in Richmond last winter. The girl was a good colored girl. The man was white. I will not attempt to describe his moral status! But he was punished to the extent of a fine of \$25, and the girl was left to shift for herself. One can easily see the connection between this sort of crime and the fact that there is no law requiring marriage between the races. Unquestionably, if the races of the two had been reversed, there would have been a lynching.—M. S. Watts in the *Springfield Republican*.

RACE WAR

The Cause

THE *Evening Sun* of Baltimore claims that the Washington riot started because:

Negro soldiers returning from the war inflamed their people with stories of race equality in Europe, especially the lack of discrimination in social intercourse.

The *New York Times* discovers some evidence which goes far toward suggesting that the Bolshevik agitation has been extended among the Negroes, especially those in the South, and that it is bearing its natural and inevitable fruit.

The *Baltimore American* thinks that the spirit of riot is because:

Unfortunately, a spirit of hostility to work at the wages that were paid before the war is widespread.

And that the discharged Negro soldier

has come to feel a sense of dislike for employments that now have for him a servile nature.

In Chicago:

"It's only working people who are fighting each other and killing," said E. K. Foote, Secretary of the "miscellaneous" local of the Stockyards Labor Council, today. "We are considering a big mass meeting to be held on the south side with representative trades union men of white and colored races discussing what a foolish thing it is for working people to go after each other with guns and knives."

The New York *Evening Post* brushes much of this aside:

But why should we pay attention to dubious and obscure reasons for alarm when there is a glaring one in front of us? The efficacy of tons of "red" literature and platoons of speakers in inflaming Negroes is not to be compared with a single hour of such outrageous violence as it required the whole Chicago police force yesterday to suppress. White bathers began stoning Negroes; they chased one man who drew a revolver, and the struggle was carried from the beach into a Negro quarter of the city. Events of recent weeks would show that it is not the Negro who is to be feared as trouble-maker, but the irresponsible white man. The southern Negro has gained much in recent years and has every right to look forward to gaining more. He has come into our northern cities in growing numbers. Treat him well, and we can laugh at tales of violent propaganda, as we laughed at those of German propaganda; treat him unjustly, and no propaganda will be needed to arouse him.

But it is the *Jim Jam Jems*, a freak journal published in North Dakota and usually rabidly anti-Negro, that gets down to the rock-bottom truth:

Look right down into the black record—blacker than the duskiest skin. Truth harms none but the guilty. In the thirty years last past upwards of three thousand American Negroes—citizens of this land—have been brutally mutilated, tortured, butchered, unsexed, burned and lynched. Only recently a Negro woman was disemboweled and her unborn babe torn from her quivering flesh. Almost within sight of the White House, at Alexandria, Va., a Negro was most brutally lynched. At Springfield, Ill., where rest the ashes of Abraham Lincoln, and almost within sight of his tomb, a Negro was burned. Last year at East St. Louis, Ill., over forty Negroes were barbarously slaughtered. And, in addition, in the past year thirty-one Negro men and one Negro woman were barbarically lynched. Negroes have been burned at the stake even in John Brown's own State of Kansas. And mark this: In just two places in this world has the smoke from living human torches ascended heavenwards—at Rome under Ne-

ro and in the United States of America under the Star Spangled Banner!

Look further. The United States—with the aid of the American Negro, too—protested with all its might, with all its billions, with millions of its men, on sea, on land and in the air, against the awful atrocities, mutilations, defilements, butcheries and outrages perpetrated overseas. America's strong arms—upheld by American Negroes, too—spanned the seas and throttled to its death barbaric atrocities abroad.

Aren't burnings at the stake, mutilations, tortures, unsexment, hangings, disembowelments, crucifixions and human tortures just as atrocious in America as they are overseas? Why visit barbarities with fire and sword overseas and tolerate them in our own land? America idealizes, enshrines and worships justice—justice to all abroad and at home. Is her arm long enough to span an ocean, and too short to throttle her own Satyrs of bestiality?

Most American Negroes are poor; but who stole their toil for generations and still pays them but a pittance? Many American Negroes are ignorant; but who kept them so for generations and still doles out education with niggardly hands? Many American Negroes are not ideal citizens; but would any other race be any better barely half a century ungyved and unmanacled? Many American Negroes are lustful; but are they the only ones, and if so, whence come all the millions of mulattoes?

There are ten million American Negroes in this land—their ancestors brought here were kidnapped to minister to American idleness—and but few voices are raised in their behalf. We raise our voice.

If American Negroes are good enough, brave enough, courageous enough, patriotic enough, to fight—as they have fought like dusky demons—in every American war, aren't they good enough to be protected at home?

Ought the American Negroes having battled—against fearful odds within and without their ranks—heroically abroad for freedom, to return home to battle against a resurrected Ku Klux Klan? We say NO!

The Remedy

THE New Bedford *Evening Standard* asks:

Does the Negro in this country get a square deal?

If the nation is candid enough to answer that question truly, it should be the first step in an effort to solve the Negro problem that has become so ugly since the war. . . .

There will be a Negro question as long as the Constitution is subverted and the Negro is denied his rights. It will grow worse instead of better. Unless it is met fairly and honestly, some day it will end in a race war.

The Springfield *Republican* declares that: If there is the least danger of the Negro race being influenced by revolutionary prop-

aganda against the existing institutions of the country, what is the best preventive measure that could be taken? The answer is so easy that no one really needs to be told. Stop the lynchings and burnings of Negroes! Prove that the law was made for them as well as for other citizens, that the Government will protect the black in the most elementary rights as well as the white.

I believe my people should defend their homes and family.—*Bishop G. C. Clement.*

Protect their homes at any cost.—*Bishop L. J. Coppin.*

Before the Negroes of this country will again submit to many of the injustices which we have suffered, the white men will have to kill more of them than the combined number of soldiers that were slain in the great world war.—*Rev. C. J. Robinson in an open letter to President Wilson.*

IN FRANCE

MEAGER dispatches reveal the fact that the extraordinary document published in the May Crisis has at last been openly read in the French Parliament, and black Deputies from Guadeloupe and Martinique asked explanations of this and of the treatment of black French soldiers by American Military Police. The *Associated Press* dispatch continues:

Jules Pams, Minister of the Interior, replying to the Negro Deputies, said that the Government had applied penalties and asked them not to insist upon a discussion of "the very regrettable incidents, as France does not forget the services rendered by her Negro sons."

The Minister of the Interior added that the American Government had not hesitated to express regrets in terms that did France the greatest honor.

Mr. Pams asked Deputy Boisneuf for reasons of "high diplomacy" to drop the subject. The Deputy said he would not speak of questions that involved diplomacy, but he protested against the complicity of the French Military Authorities in these incidents.

Finally, the Chamber of Deputies by unanimous vote adopted the following resolution:

The Chamber, faithful to the immortal principles of the rights of man, condemning all prejudices of religion, caste or race, solemnly affirms the absolute equality of all men without distinction of race or color, and their right to the benefit and protection of all the laws of the country. The Chamber counts upon the Government to apply these laws and see that the necessary penalties for their infringement are inflicted.

The *Buffalo Express* says:

Enemies of Ireland have said to its friends: "You have no more right to approach the Peace Congress than the American Negroes, another race who claim to be oppressed, would have to ask redress from the same body. What would the Government of the United States say to that?"

Well, just that thing has happened. William Monroe Trotter, of Boston, representing the National Equal Rights League, has sent to Sir Eric Drummond, Secretary General of the League of Nations, a petition asking that certain clauses be inserted in the covenant. These clauses, the petition says, are designed to secure for American Negroes and other racial minorities "full democracy." The petition tells of the part taken on the battle-front by Negroes of the United States and other countries. "It is notoriously indisputable," the petition says, "that colored Americans were deprived of or denied, either in law or in fact, full liberty and democracy."

P. has taken steps to promote the registration of the colored teachers.

☐ In Houston, Texas, the following wages are paid to school teachers: the white teachers for eight grades receive \$50, \$60, \$70, \$80, \$90, \$111 and \$122 per month; the colored teachers receive \$45, \$50, \$55, \$60, \$65, \$70, \$75 and \$80 per month, with larger classes and fewer facilities; the white principals get \$1,200 to \$2,700 a year; the colored principals, from \$960 to \$1,200.

Reconstruction

War — and its aftermath—has opened the eyes of our people. They are now seeing and thinking straight. They now demand of individuals and enterprises seeking their patronage and support, performance rather than glittering promises. They also demand evidences of stability in such enterprises and experience on the part of those conducting them.

The management of the Southern Aid Society of Virginia, Inc., rejoices to see this day—They have labored, in season and out, for 26 years to help to bring about just such improvement in our business relationships.

The Southern Aid Society of Virginia, Inc., has always issued a superior contract—*The only one guaranteeing payments for Sickness and Accidents each week of every year and an undiminished Death Claim after death.*

To-day it challenges the country to show a better record—than the following—for an institution confining its business to its Home State.

26 years of satisfying service to policy-holders.

\$30,000.00 Capital Stock, fully paid in.

\$50,000.00 Federal, State & City Bonds.

\$50,000.00 1st Lien Mortgages—Loans to our people to secure good homes in desirable locations.

\$100,000.00 Cash in Banks.

\$150,000.00 Real Estate—Free from all encumbrances.

We invite the scrutiny of the reconstruction attitude of the insuring public.

Scott's Official History of The American Negro in the Great War

A Proud Chapter in the History of the Negro Race

The official and authentic history of the true part played by the Negro in the great World War, written by a man whose valuable experience, intimate connection with every phase of the direction of the great struggle, makes it possible to publish the true facts.

A great historical volume that should be in every Negro home. Gives inside facts and accurate and official data and pictures which will appear in no other book. Every chapter is full of the very information which you have been anxiously waiting to know.

This Great Book tells all about the Negro Everywhere in the World War—**How He Did His Duty**, in every capacity—from right up in the front line trenches and on the battlefields—clear back to the work of keeping the home fires burning; on the farms; in the mills and munition plants; on the railroads and steamships; in shipyards and factories. Men and women with the Red Cross, the Y. M. C. A., the Y. W. C. A., the War Camp Community Service, the Liberty Loan Drives, etc.

Scott's Official History was written for the Negro by the Negro that the wonderful record of daring deeds, gallant bravery and undying heroism of our black troops might never perish. A great tribute to the patriotism of the Negro Race.
